DETAILED ACTION

Allowable Subject Matter

1. Claims 1-37 are allowed.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art of record (*Thompson et al*, US. Pat. No. 6,128,244) does not teach or suggest individually or in combination the following:

for each nibble, converting that nibble into serial data, providing a line and transferring the nibble serial data over the line, and converting that nibble serial data into parallel data to recover that nibble and combining the recovered nibbles into the data block.

For these reasons claims 1, 4, 23 and 26 are deemed to be allowable over the prior art of record, and claims 2-3, 5-6, 24-25 and 27-37 are allowable by dependency.

Also, the prior art of record does not teach or suggest individually or in combination the following:

Adding a start bit to each of the m sets, the m start bits collectively representing one of a particular mathematical function or destination, transferring from the first node each of the m sets over a separate line, receiving at the second node each of the transferred m sets and utilizing the received m sets in accordance the m start bits.

For these reasons claims 7 and 15 are deemed to be allowable over the prior art of record, and claims 8-14 and 16-22 are allowable by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
